PLUS

Professional motor pump with 4-pole motor (1400 rpm) and self-priming linear pump: the low rotation speed significantly extends the life of the components inside the motor pump, guaranteeing greater efficiency and silence

Painted steel frame with support foot for stable positioning and ergonomic handle for easy movement

Sturdy protective steel cover to protect the motor pump against accidental impacts

Practical hose reel (optional) connected under pressure to use only the necessary length of hose and to rewind it easily after use
